Cost-effective and easy to use, the internet and intranet have become popular ways to serve both data and functionality. Whether you want to reach across the hall or across the world, our skilled programmers focus on creating innovative, robust, reliable, scalable, and cost-effective web solutions for you.

From simple search and report pages to service-oriented architecture design, Applied Data Consultants, Inc. (ADC) is your one-stop-shop for web services.

YOUR BENEFITS

- **Knowing Your Needs** – Looking for fast, functional, user-friendly and cost-effective web solutions? ADC is committed to helping you achieve that goal.
- **Enhancing Your Services** – ADC can help you integrate spatial solutions into your current web site to provide additional functionality both internally and to the public.
- **Using Advanced Technology** – Our in-house team of experienced web programmers uses the latest technology to bring you the best possible solution.
- **Offering Innovative Solutions** – Looking for more than off-the-shelf spatial web solutions? ADC will work with you to develop a solution that meets your specific needs.
- **Providing a One-Stop-Shop** – We can host your application at our on-site facility, or help you deploy your web solution in-house. From the first step, ADC will be with you every step of the way.
- **Protecting Your Investment** – With 99% uptime and 24/7 backup support, you can rest assured that your web application and your investment will be protected.
