## TABLE OF CONTENTS

PAGE	
I.F.C.	LAKE & TROUT STREAM DIRECTORY
1	LEGEND PAGE
2-43	TOWNSHIP MAPS
28-29	SCENES OF DOUGLAS COUNTY
44-45	LAND SURVEYS DESCRIPTION
46-47	COUNTY HIGHWAY MAP
48	OWNERS INDEX
I.B.C.	ZONING ORDINANCE

The Index of Owners shows every land owner alphabetically in the county whose names are shown on the maps. To find a land owner, look up his name in the index and it will show the section and page number of his land.

Name	Section	Page
BERG, JOHN .....	4	8

The Map above shows the various townships in the county. Numerals on each township indicate the page number that map will appear in this book.

This Plat Book is published as a Guide to the community. All information in this book was compiled by the County Clerks Office from the latest available sources, including the official public records at the County Court House. All efforts have been made to make the maps as accurate as possible. We will not however, be responsible for omissions or errors.

### DOUGLAS COUNTY

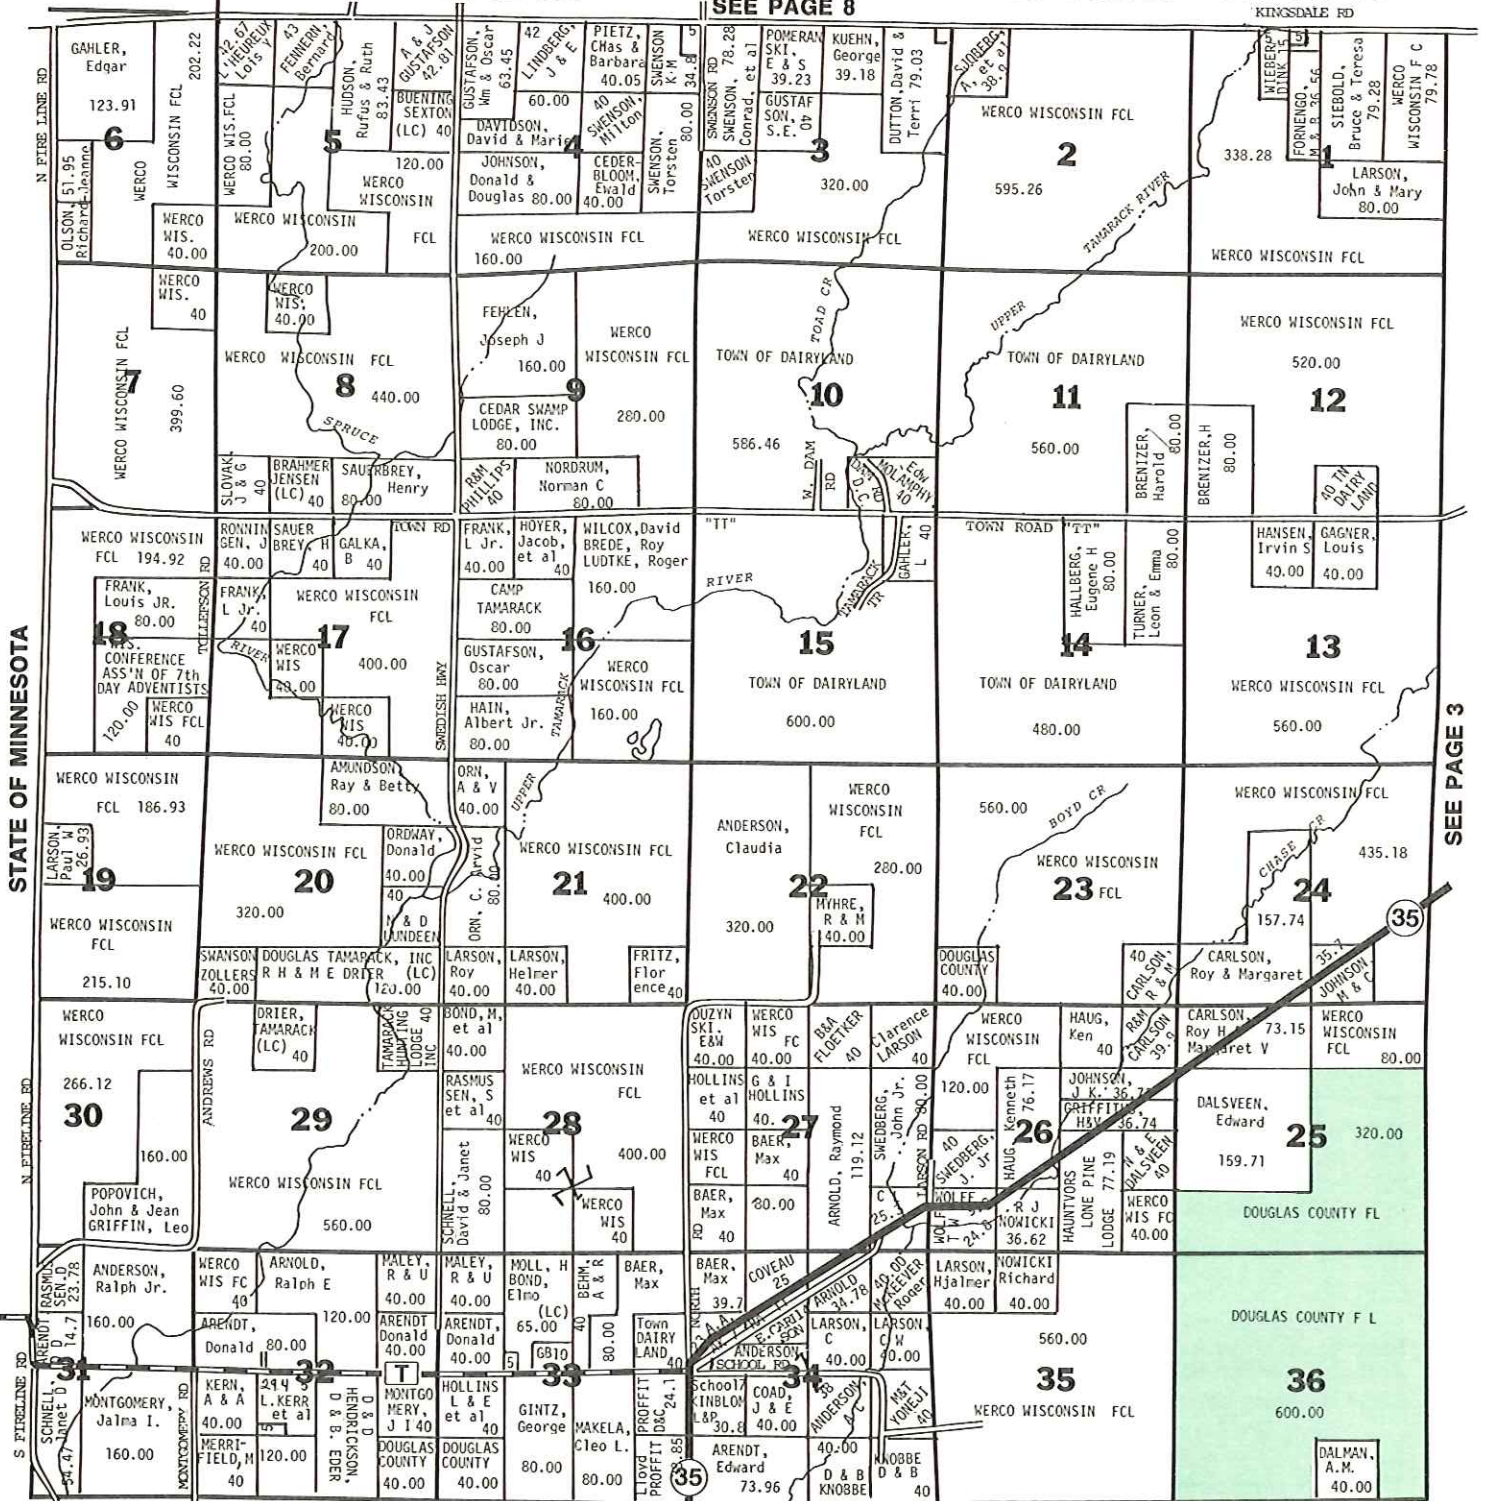

Douglas County was created by an Act of Legislature on February 8, 1854, and was named after United States Senator Stephen A. Douglas of Illinois, who was financially interested in the new settlement. The settlement, located at the mouth of the Nemadji River, was known as Superior, and a Post Office was established in 1854 with Denis Dean as Postmaster. The plat of Superior was filed on September 4, 1854.

Superior's first Court House, a two-story frame building built in 1871 near 25th Avenue East and East 5th Street, was vacated in March 1920. The present Court House was built during the year 1919 and was occupied in March, 1920. It is considered the finest Court House in the Northwest. Today there are 28 supervisors on the County Board representing twenty districts in the City of Superior, five incorporated villages and sixteen towns, covering 1,342 square miles.

Douglas County, fourth largest County in Wisconsin (land area), lies in the northwest corner of the Indian Head Country and the state. Most of the county is within a half hour's drive from Superior, the County seat of Government, official population - 32,237 and total official Douglas County population 44,657. Superior is the terminus for the 1,127 mile pipe line which originates in the fabulous oil fields of Alberta, Canada. The Superior-Duluth harbors rank second in the nation in tonnage, exceeded only by New York. Industry, Agriculture, Recreation and Forestry are the major sources of income for Douglas County residents.

This book is protected by its copyright. Copying or reproducing any map, without written permission from the Douglas County Clerks Office is not permitted. Violation is subject to prosecution.

# IMPORTANT FACTS ABOUT LAND DESCRIPTIONS

LAND MEASUREMENTS, TOWNSHIPS, SECTIONS,  
MEANDERED WATER, GOVERNMENT LOTS, ETC.

*ft. in Acre  
if square  
208 x 208*

## WHAT IS A LAND DESCRIPTION?

A LAND DESCRIPTION IS A DESCRIPTION OF A TRACT OF LAND IN LEGALLY ACCEPTABLE TERMS, SO AS TO SHOW EXACTLY WHERE IT IS LOCATED AND HOW MANY ACRES IT CONTAINS.

## TABLE OF LAND MEASUREMENTS

LINEAR MEASURE		SQUARE MEASURE		
1 inch ..... .0833 foot	16½ feet ..... 1 rod	144 sq. in. .... 1 sq. ft.	43560 sq. ft. .... 1 acre	
7.92 inches ..... 1 link	5½ yards ..... 1 rod	9 sq. ft. .... 1 sq. yd.	640 acres ..... 1 sq. mile	
12 inches ..... 1 foot	4 rods ..... 100 links	30½ sq. yds. .... 1 sq. rod	1 sq. mile ..... 1 section	
1 vara ..... 33 inches	66 feet ..... 1 chain	16 sq. rods ..... 1 sq. chain	36 sq. miles ..... 1 township	
2¾ feet ..... 1 vara	80 chains ..... 1 mile	1 sq. rod ..... 272¼ sq. ft.	6 miles sq. .... 1 township	
3 feet ..... 1 yard	320 rods ..... 1 mile	1 sq. chain ..... 4356 sq. ft.	208 ft. 8 in. sq. .... 1 acre	
25 links ..... 16½ feet	8000 links ..... 1 mile	10 sq. chains ..... 1 acre	80 rods sq. .... 40 acres	
25 links ..... 1 rod	5280 feet ..... 1 mile	160 sq. rods ..... 1 acre	160 rods sq. .... 160 acres	
100 links ..... 1 chain	1760 yards ..... 1 mile	4840 sq. yds. .... 1 acre		

In non-rectangular land descriptions, distance is usually described in terms of either feet or rods (this is especially true in surveying today), and square measure in terms of acres. Such descriptions are called Metes and Bounds descriptions and will be explained in detail later. In rectangular land descriptions, square measure is again in terms of acres, and the location of the land in such terms as N 1-2 (north one-half), SE 1-4 (south east one-fourth or quarter), etc., as shown in Figures 1, 2, 3 and 4.

## MEANDERED WATER & GOVERNMENT LOTS

A meandered lake or stream is water, next to which the adjoining land owner pays taxes on the land only. Such land is divided into divisions of land called government lots. The location, acreage and lot numbers of each such a tract of land, was determined, surveyed and plotted by the original government surveyors.

The original survey of your county (complete maps of each township, meandered lakes, government lots, etc.) is in your courthouse, and this original survey is the basis for all land descriptions in your county (see figure 5).

### IMPORTANT

THE GOVERNMENT LOT NUMBER GIVEN TO A PIECE OF LAND, IS THE LEGAL DESCRIPTION OF THAT TRACT OF LAND.

### HOW CAN YOU TELL WHETHER WATER IS MEANDERED OR PRIVATELY OWNED?

On our township maps, if you find government lots adjoining a body of water or stream, those waters are meandered. If there are no government lots surrounding water, that water is privately owned, the owner is paying taxes on the land under the water, and the owner controls the hunting, fishing, trapping rights, etc., on that water, withing the regulations of the State and Federal Fish and Game laws, EXCEPT where such water is deemed navigable, other rulings may sometimes pertain.

As a generality (but not always), meandered water is public water which the public may use for recreational purposes, fishing, hunting, trapping, etc., provided that there is legal access to the water, or in other words, if the public can get to such waters without trespassing. There still is much litigation concerning the respective rights of the public and adjacent land owners to meandered water, and many important decisions concerning the same still have to be made by the courts.

FIGURE 5.

## SAMPLE SECTIONS SHOWING RECTANGULAR LAND DESCRIPTIONS, ACREAGES AND DISTANCES

# IMPORTANT FACTS ABOUT LAND DESCRIPTIONS

## THE BEST WAY TO READ LAND DESCRIPTIONS IS FROM THE REAR BACKWARDS.

Descriptions of land always read FIRST from either the North or the South. In figures 1, 2, 3 and 4, notice that they all start with N (north), or S (south), such as NW, SE, etc. They are never WN (west north), ES (east south) etc.

**IMPORTANT:** It is comparatively simple for anyone to understand a description, that is, determine where a tract of land is located, from even a long description. The SECRET is to read or analyze the description from the rear or backwards.

**EXAMPLE:** Under figure 3, the first description reads E 1-2, SE 1-4, SW 1-4, SW 1-4. The last part of the description reads SW 1-4, which means that the tract of land we are looking for is somewhere in the SW 1-4 SW 1-4 (as shown in figure 2). Next back, we find the SE 1-4, which means that the tract is in the SE 1-4 SW 1-4 SW 1-4 (as shown in figure 4). Next back and our last part to look up, is the E 1-2 of the above, which is the location of the tract described by the whole description (as shown in figure 3).

## TO INTERPRET A LAND DESCRIPTION - LOCATE THE AREA ON YOUR TOWNSHIP PLAT, THEN ANALYZE THE DESCRIPTION & FOLLOW IT ON THE PLAT MAP.

### TOWNSHIP SURVEY INFORMATION

DIAGRAM SHOWING HOW SECTIONS ARE  
NUMBERED IN A TOWNSHIP

A CONGRESSIONAL TOWNSHIP  
CONTAINS 36 SECTIONS OF LAND  
1 MILE SQUARE

A CIVIL OR POLITICAL TOWNSHIP  
MAY BE LARGER OR SMALLER THAN  
A CONGRESSIONAL TOWNSHIP.

FIGURE 7.

### TOWNSHIPS

Theoretically, a township is a square tract of land with sides of six miles each, and containing 36 sections of land. Actually this is not the case. Years ago, when the original survey of this state was made by the government engineers, they knew that it was impossible to keep a true north and south direction of township lines, and still keep getting township squares of 36 square miles. As they surveyed toward the north pole, they were constantly running out of land, because the township lines were converging toward the north pole.

If you will turn to one of the township maps in this atlas, you will notice that on the north and on the west of each township, there are divisions of land which show odd acreages. In some townships, these odd acreages are called government lots (because they were given a lot number), and at other times left as FRACTIONAL FORTIES OR EIGHTIES. It was at the option of the original government surveyors as to whether they would call these odd acreages government lots, or fractional forties and eighties.

The reason for these odd acreages is that the government surveyors adjusted for shortages of land which developed as they went north, by making fractional forties, eighties or government lots out of the land on the west side of a township, and the same for the land on the north side of a township to keep east and west lines running parallel. In other words it was impossible to fit full squares into a circle.

Townships sometimes vary in size from the regularly laid-out township. (see figure 6). Suppose that the dotted line in figure 6 is a river separating two counties. The land north and west of the river could be a township in one county, the land south and east could be a township in another county. Which ever county the land is in, it still retains the same section, township and range numbers for purposes of land descriptions.

Each township has a township number and also a range number (sometimes more than one of each if the township is oversized, or a combination of more than one township and range).

Government surveying of townships is run from starting lines called base lines and principal meridians. Each township has a township number. The number is the number of rows or tiers of townships that a township is either north or south of the base line. Also each township has a range number. This number is the number of rows or tiers of townships that a township is either east or west of the principal meridian. (see figure 7). EVERY DESCRIPTION OF LAND SHOULD SHOW THE SECTION, TOWNSHIP AND RANGE IT IS LOCATED IN.

**TOWNSHIPS MAY BE EITHER NORTH OR SOUTH OF THE BASE LINE.  
RANGES MAY BE EITHER EAST OR WEST OF THE PRINCIPAL MERIDIAN.**

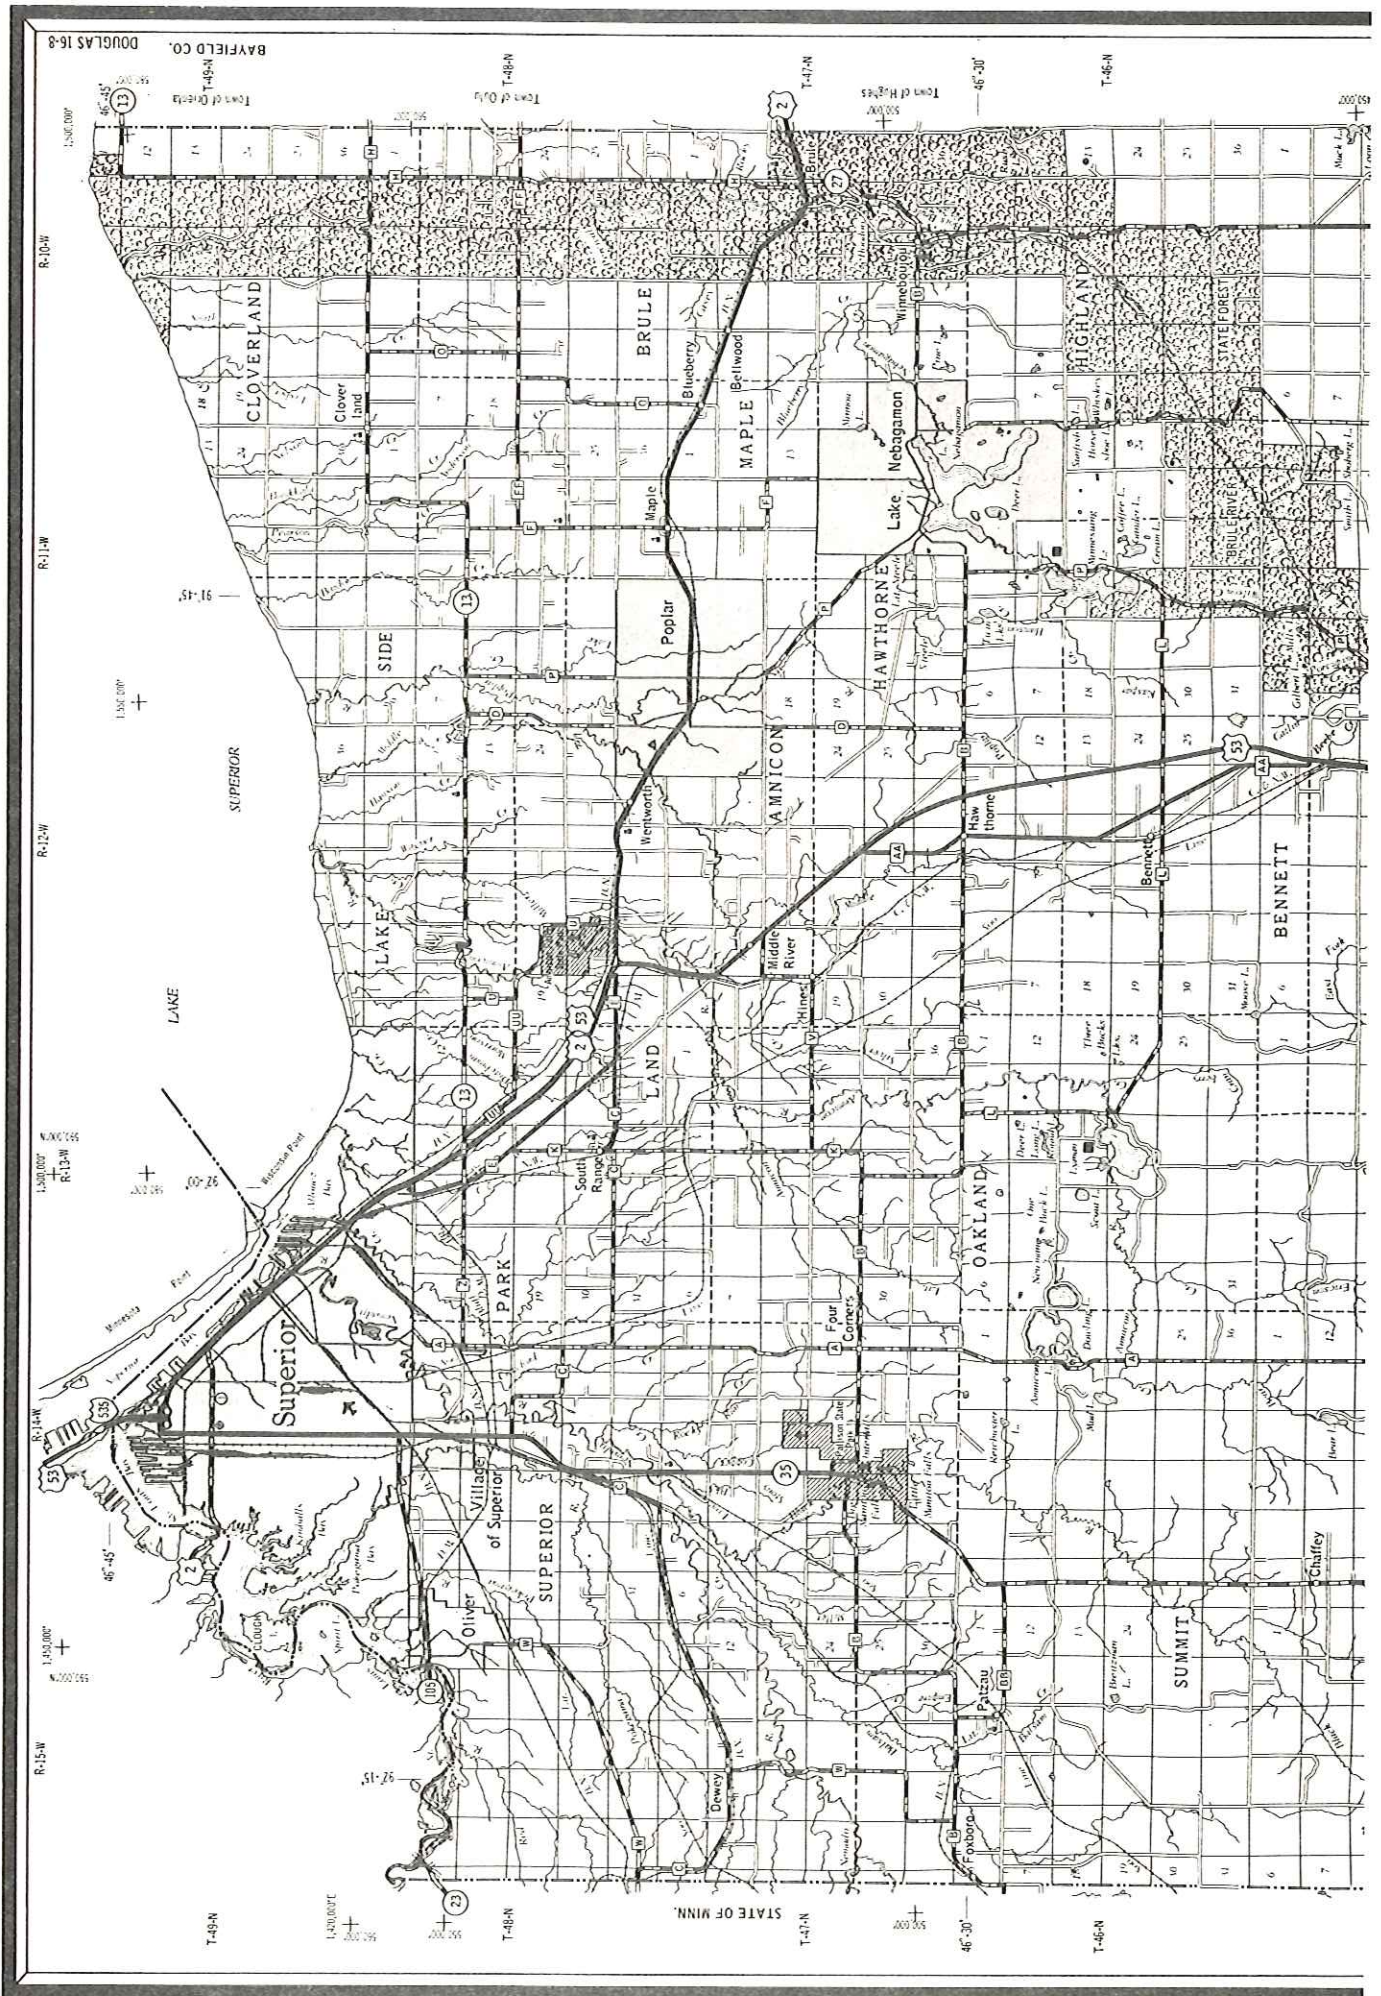

### METES AND BOUNDS DESCRIPTIONS

#### AND EXPLANATION OF DIRECTION IN TERMS OF DEGREES

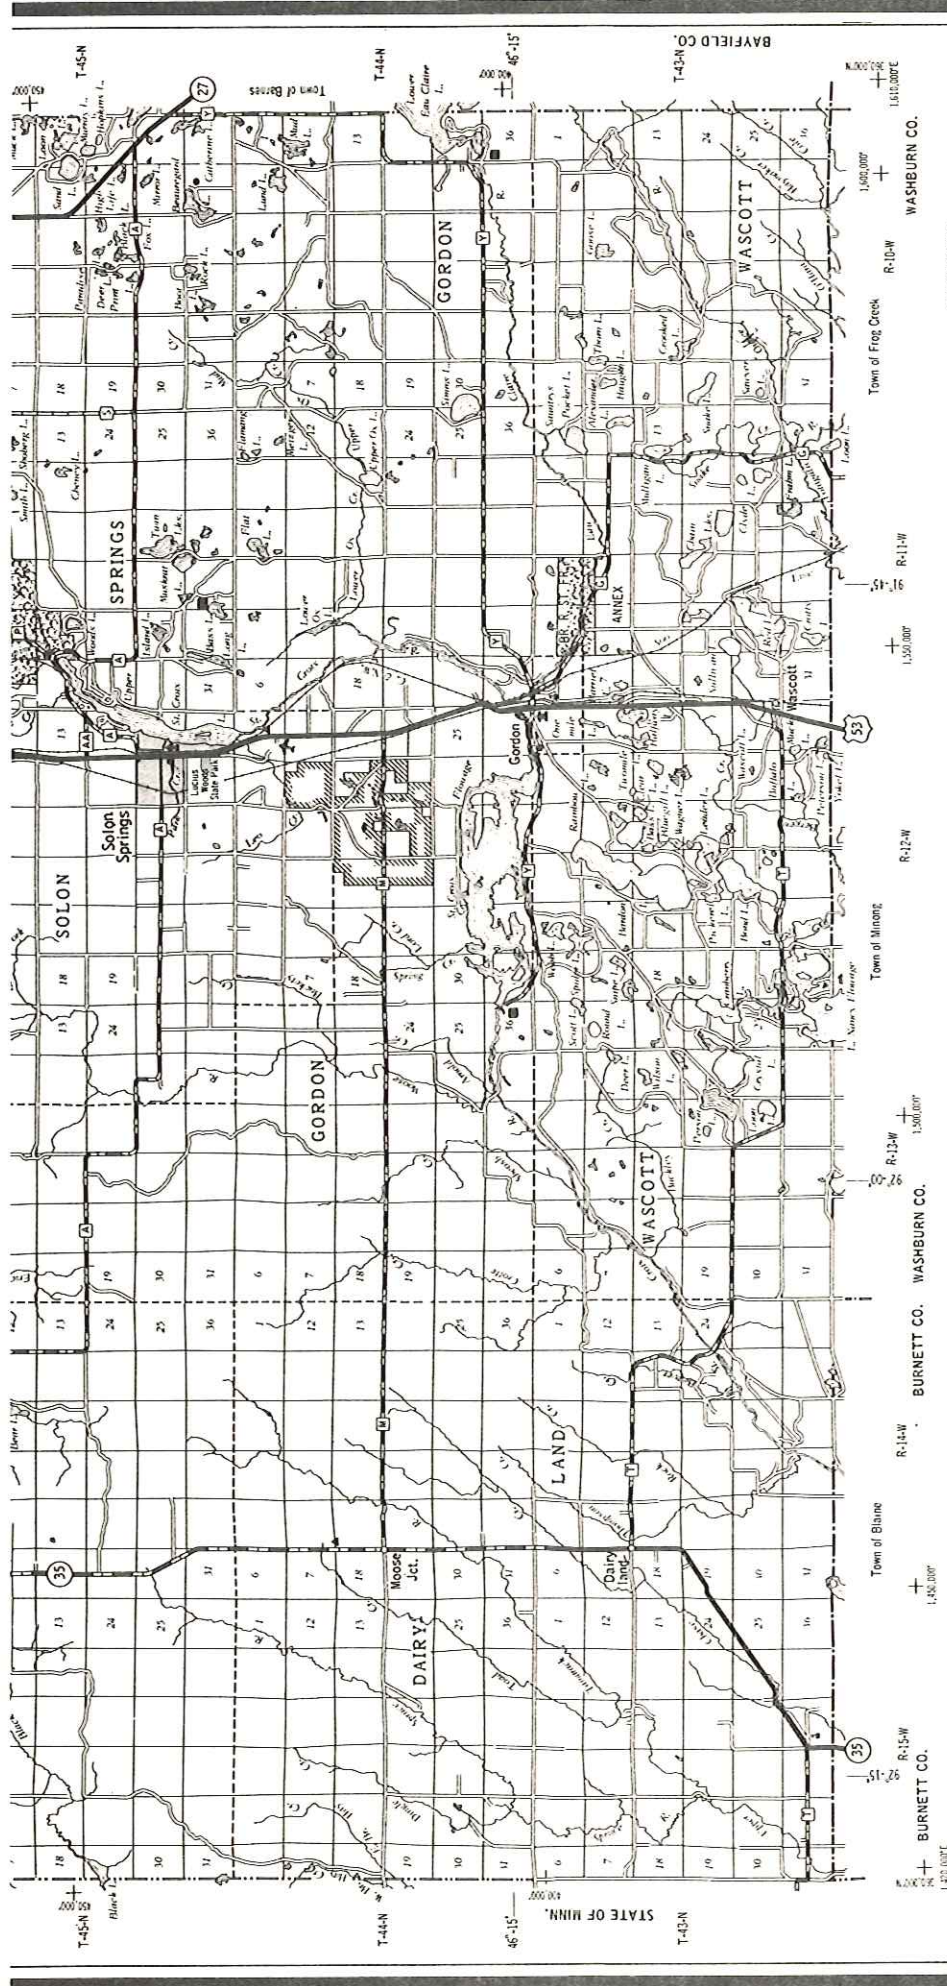

**WHAT IS A METES AND BOUNDS DESCRIPTION:** It is a description of a tract of land by starting at a given point, running so many feet a certain direction, so many feet another direction etc., back to the point of beginning. **EXAMPLE:** In figure 5 notice the small tract of land outlined. The following would be a typical metes and bounds description of that tract of land. "Begin at the center of the section, thence north 660 feet, thence east 660 feet, thence south 660 feet, thence west 660 feet, back to the point of beginning, and containing 10 acres, being a part of Sec. No. etc."

**IMPORTANT:** To locate a tract of land from a metes and bounds description, start from the point of beginning, and follow it out (do not read it backwards as in the case of a rectangular description).

The small tract of land just located by the above metes and bounds description could also be described as the SW 1-4 SW 1-4 NE 1-4 of the section. In most cases, the same tract of land may be described in different ways. The rectangular system of describing and locating land as shown in figures 1, 2, 3 and 4 is the most simple and almost always used when possible.

# ZONING ORDINANCE AMENDMENT

## DOUGLAS COUNTY, WISCONSIN

### SECTION 1.0 INTRODUCTION

#### 1.1 Authority and Purpose

For the purposes listed in Wisconsin Statutes, Sections 59.97, 59.971, 59.99 and 87.30 the Board of Supervisors of Douglas County in regular session this 10th Day of December, 1970, do ordain and enact as follows:

An ordinance regulating and restricting the location, construction and use of buildings, structures, and the use of land in the unincorporated portions of Douglas County and for said purposes dividing the County into districts.

### SECTION 3.0 ZONING DISTRICTS

#### 3.1 Establishment of Districts

For the purposes of the ordinance, the unincorporated areas of Douglas County are hereby divided into the following type of districts:

- (1) R-1: Residential District
- (2) R-2: Residential District
- (3) RR-1: Residential-Recreation District
- (4) A-1: Agricultural District
- (5) C-1: Commercial District
- (6) I-1: Industrial District
- (7) F-1: Forestry District
- (8) W-1: Resource Conservation District
- (9) SP-1: Shoreland Protection District (overlay)
- (10) PUD: Planned Unit Development District

#### 3.11 SP: SHORELAND PROTECTION DISTRICT

This district provides for the protection waters and shorelands, and for safe and orderly shoreland development in Douglas County. The intent is to further the maintenance of safe and healthful conditions; prevent and control water pollution; protect spawning grounds, fish and aquatic life; control building sites, placement of structures and uses, and to preserve shorecover and natural beauty. The district includes all lands in the unincorporated areas of the county within the following distance from the normal high-water elevation of navigable water; 1,000 feet from a lake, pond, or flowage, and 300 feet from a river or stream or to the landward side of a floodplain whichever is greater.

### SECTION 4.0 REGULATIONS

#### 4.1 Application of Regulations

The use of any land or water; the size, shape, and placement of lots; the use, size, height, type, and location of structures thereon; and the provisions for open spaces shall be in compliance with the regulations set forth on the "Official Zoning Map, Douglas County, Wisconsin," and in the text of the ordinance.

#### 8.2 Land Use Permits

##### 1. Permit Required

No structure shall be built, moved, or structurally altered, and no land use shall be substantially altered until a land use permit has been issued by the County Zoning Administrator. He shall not issue a permit for a structure or a use not in conformity with the requirements of this ordinance.

Douglas County Subdivision Control Ordinance and Douglas County Sanitary Ordinance are also in effect. For details contact County Zoning Office, Room 204, Douglas County Courthouse, Superior, Wisconsin 54880.
