GENERAL CONSTRUCTION NOTES

1. Contractor shall be responsible for checking all Unit plans for proper pipe elevations.
2. All existing lines shown as per "as built" plans available. Some variations may exist. The contractor should plan for some changes.
3. All new gravity flow lines shall be massive at plan elevations. The contractor shall be responsible for making any conflicting pressure line to clear gravity lines. All crossing lines requiring move shall be clipped to avoid ambiguity upon completion of all new structures. Contractor shall protect ground, all new structures as shown & directed by Engineer. All material shall be taken from this site. Various soil materials are available.

Fiberglass Reinforced Pipe	F.R.P.
Polyvinyl Chloride Pipe	P.V.C.
Copper Pipe	Cu.P.
Corrugated Metal Pipe	C.M.P.
Plate Valve	G.V.
Butterfly Valve	B.
Return Activated Sludge	R.A.S.
Waste Activated Sludge	W.A.S.
Reinforced Concrete Pipe	R.C.P.
Pipe Invert Elevation	Inv. Elev.
Steel Pipe	S.P.
Effluent Flushing Water	E.F.W.
Yard Hydrant	Hyd.
Wrought Iron Pipe	W.I.
Check Valve	C.V.
Backwater Valve with Cleanout	B.V.w/c.o.

PLAN SYMBOLS

- Valve or Gate — M, ⊗
- Valve with Handwheel — w/hw.
- Proposed Contour with elevation — 613
- New Pipe to be Installed
- Existing Pipe
- New Structure with walk & roof
- Existing Structure with walk & roof

SPECIFIC CONSTRUCTION NOTES

NOTE: Following notes pertain to items indicated thus (3)

1. Cut off & plug exist. 36 CIP, replace 8" DIP as shown & connect to 8" water tight line size & 903.0
2. Cut into exist. 8" DIP, install wall sleeve & 8 DIP & valve box
3. Cut into exist. Aqua Aerator & Anderson Air tube, water tight
4. Cut into exist. 24" RCP & install new 24" manhole over new 24" Effluent line with new invert & other elevations as shown.
5. Cut into exist. 2" line & Plug & Fill with grout
6. Cut off & abandon exist. 6" line & plug
7. Cut into exist. 2 lines, Rt. & 2 - 2" P.V.C. Chlorine Sub. Point line as shown
8. Rt. & 2 - Cu. N.P.W. Line
9. Rt. - 8" DIP - See Plan
10. Exist. 6" CIP Effluent to tank, waste
11. Exist. 10" W.I. Sewage Gas
12. Exist. 10" W.I. City Main
13. Exist. 1" W.I. N.P.W. - Continue to Aqua-Aerator Tank line, item 1 Sht
14. Exist. 4" CIP & F.W.
15. Exist. 2" CIP E.F.W.
16. Exist. 12" W.I. City Gas
17. Exist. 12" W.I. Sewage Gas
18. Exist. 4" CIP F.W.
19. Exist. 8" CIP - New Sludge Line
20. Exist. 8" CIP - Digested Sludge
21. Rt. - 24" New Gas Line
22. Rt. - 12" New Gas Line
23. Rt. - 1" New Gas Line

Install 8" plug valve with Floor Stand & hand wheel. Run to Rt. 21 Valve
Filter Cake Storage Slab
Top Slab Conc. Unit E See Plan for Reinf.
Proposed New Digester
Future Digester
New Digester Slab
Existing Digesters
Existing Digester Control Bldg.
Existing Chlorine Handling Area
Proposed Chlorine Contact Tank
Proposed Chlorine Contact Tank
Existing Aeration Tank
Existing Aeration Tank
New Activator Sludge Aeration Tanks
New Sludge Thickening Unit
New Primary Settling Tanks
Existing Primary Settling Tanks
Existing Main Control Bldg (See Plans for Revisions)
Existing Blue Tank Piping with Cut Outs
Existing Well & Pump House - Leave as is. Run new sewer & water
Existing Well & Pump House - Leave as is. Run new sewer & water
Existing Grit Tank to be Converted to Supernatant Aeration
Existing Grit Tank to be Converted to Supernatant Aeration
Construct Bypass Retention Tank
Construct Chlorine Bldg. & Grit Bldg.
Construct Aerated Grit Basins
Construct Aerated Grit Basins
Exist. 60" CMP Outfall for Retention Tank - Leave as is
Exist. 60" CMP Bypass Line - Leave in place
Existing Overflow By-pass Structure, Revise as shown on plans
Exist. 36" CIP Influent Line - Leave as is
Exist. 24" RCP Raw Sewage Influent Line - Leave as is
3-8"x 54" Raw Sewage Influent - Leave as is
From City Sanitary Sewer System
Exist. 12" Plastic Lined Steel Pipe - Leave as is - Chlorine Feed Line
Exist. 2" PVC Pipe Chlorine to Solution
Exist. Digester Control Bldg.
Exist. Primary Scum Sump
Exist. 6" CIP Scum Suction from Primary Settling Tanks
Exist. 8" CIP Scum or Effluent Line. Relay as necessary to clear 36" DIP manhole roof & cover.
Exist. 8" CIP Effluent Line
Exist. Effluent Sprinkler System
Exist. 8" Gas Sprinkler
Exist. Grit Tank to be Converted to Supernatant Aeration
Exist. Grit Tank to be Converted to Supernatant Aeration
Exist. Blue Tank Piping with Cut Outs
Existing Well & Pump House - Leave as is. Run new sewer & water
Existing Well & Pump House - Leave as is. Run new sewer & water
