GENERAL NOTES

1. Details of construction materials and methods not shown on this drawing shall conform to the Standard Specifications and the applicable Section, Division.

2. The proposed manhole shall be constructed on an equal elevation to the standard foundation unless otherwise indicated.

3. Any manhole used as a "temporary" structure is understood to be subject to replacement within the term of the work and shall be replaced within 1 year of the date of completion of the work. The manhole shall be replaced with a permanent manhole within the term of the work.

4. Refer to Section 28 for details on Standard Specifications Section 280 for pipe culverts and Section 281 for manholes.

GENERAL NOTES

1. Details of construction materials and methods not shown on this drawing shall conform to the Standard Specifications and the applicable Section, Division.

2. The proposed trench shall be constructed on an equal elevation to the standard foundation unless otherwise indicated.
